

# **PRO-FINITOR :**

You've got the skills, we've got the site!

---

**Pro-Finitor** stands for **Professional Surveyor** in Latin. For executing any project, the first step is to set out the plan on the site which gives the foundation for the super structure. To get this line-out done with least possible tolerance is the real skill of an engineer. To test this skill and to enhance their knowledge about problems, they tackle on the actual construction site, Perception presents Pro-Finitor which is an opportunity for engineers who are soon going to face market exposure.
