Reverse Coding

It is a C/C++ event. Focusing less on your programming concepts, all you need is to code your way to get the required output. You will be provided with input and output all you need is to code for it.

- **Entry fees:**Rs.100/- per team
- **Participants per team:** 2

- **Rules:**
- **Level 1**:

In this level the set of problem statements will be less complex.This level would consist of basic set of inputs and outputs you have to code the proper logic to get the desired output.

- **Level 2:**
    Same as level 1 but the difficulty level will be increased.

- **Prize Money :**
    1st **Prize: ₹5000/-**
    2nd **Prize :₹3000/-**
